EcoVadis Gold for Boxon

Boxon ranked among the top 5% in sustainability by EcoVadis

Boxon is proud to announce that it has been awarded the **EcoVadis Gold** medal for its solid sustainability work in 2022. The EcoVadis Gold medal is the second highest level of recognition from EcoVadis, an industry-leading provider of corporate sustainability assessments.

"We use EcoVadis to get an independent annual assessment of our sustainability work, and to learn from other companies. We have been assessed by EcoVadis since 2019, and we are very proud of our EcoVadis Gold medal, and that we are among the top 5% of all companies evaluated. This shows that we are on the right track, and spurs us on in our ambitious sustainability work," says Ann-Sofie Gunnarsson, CSO at Boxon.

"This award recognises Boxon's hard work and commitment towards achieving our sustainability goals, and is a tool for actively working towards the UN's 17 Sustainable Development Goals. EcoVadis' evaluation gives Boxon clear guidance on where our sustainability work is strong and where there are opportunities for improvement. Our

customers and partners can rest assured that we are purposefully working with sustainability," concludes Ann-Sofie Gunnarsson.

About EcoVadis

EcoVadis is an independent and industry-leading organisation that evaluates companies on the basis of 21 sustainability criteria and four areas: environment, working conditions & human rights, ethics, and sustainable procurement. The goal of EcoVadis' methodology is to measure the quality of a company's sustainability management system. The method used is based on internationally accepted principles for sustainability reporting and, after evaluation, the company is awarded a total score. The score can then result in a medal: bronze, silver, gold, or platinum.

EcoVadis annually evaluates 100,000 companies from over 200 industries and 175 countries.

About Boxon

Thanks to our extensive expertise and experience, we can guarantee our customers sustainable and innovative solutions within packaging and wrapping. We offer everything from simple standard boxes to automated packing machines. With the help of in-house designers, we are able to develop special solutions for packaging, as well as design labels according to your wishes.

Boxon is available in the Nordic region, Europe, and Asia. The head office is located in Helsingborg, Sweden. We have 270 employees and a turnover of around SEK 1.8 billion.
